Women's (Degree) College, Rayagada Satisfaction Survey 2019-20 Report

The Higher Education Department conducted a large-scale satisfaction survey through the World Bank funded OHEPEE project during September-December 2019. The activity consisted of two surveys, one each for undergraduate students and faculty members. A sample of at least 5% of the students and 60% of the faculty from the colleges funder under OHEPEE responded to the survey. The objective of this activity is to identify self-perceived satisfaction levels of students and faculty members, and to use the findings for better management by the college authority.

This report highlights the findings of the two satisfaction surveys - undergraduate students and faculty - conducted at your institution. The Higher Education Department hopes that this information will improve the quality of your college-level activities and programmes to result in sustained higher satisfaction levels of students and faculty at your institution.
